Welcome to the fifth newsletter of our Erasmus+ project [Mobile Virtual Learning for Indigenous Languages \(IndyLan\)](#). The 26-month project (2019-2021) is led by [Heriot-Watt University](#), and the Coordinator is [Dr Katerina Strani](#).

The project includes the following 5 partners from 4 countries (UK, Finland, Norway and Spain):

The [IndyLan](#) project has developed a mobile application that will help speakers of English, Spanish, Norwegian, Swedish and Finnish to learn **Gaelic, Scots, Cornish, Basque, Galician** and Northern **Saami**, [all endangered at different degrees](#). Our project's educational tool is designed to help users learn some of Europe's endangered languages and find out about the cultures of the people who speak these languages.

The [IndyLan app](#) contains more than 4,000 vocabulary items (terms and expressions) in about 100 categories. The modes in the application are: Vocabulary; Phrases; Dialogues; Grammar; Aural Comprehension; Culture.

**Our vision is for the [IndyLan](#) app to contribute to endangered language learning and revitalisation so that these languages remain alive and relevant in contemporary societies and economies.**
