WP1 - E-Learning Platform Creation/Mobile Application
WP2 - Online Employability Modules
WP3 - Mobile for Developing ICT/Digital Literacy Skills
WP4 - Entrepreneurship/Financial Literacy Module

THE
PROJECT
RESULTS...

LEARN MORE ABOUT THE PROJECT

>>> ABOUT THE PROJECT

The project aims to provide special learning opportunities to low-skilled women, to encourage women into education by removing location and time restrictions, and by increasing women's economic empowerment/basic skills and competencies through distance education.

>>> THE FOCUS

In particular, the project focuses on creating online course modules in an innovative method to increase the employability of housewives, immigrant and refugee women with multiple disabilities who want to be educated but can't, who are responsible for housework, sick and elderly care and those who are out of the education system, who cannot work.

The online course modules will be innovative and designed to increase the employability of women with fewer opportunities.

TARGET GROUPS

The target group of the project consists of women with multiple disadvantages (aged 20-65). The ultimate goal of the project is to ensure the social and economic inclusion of the target group by increasing their basic level skills and qualifications, digital/financial literacy and entrepreneurship skills.

>>> PROJECT GOALS

- To provide easy access to educational services with distance education modules for women who cannot attend face-to-face.
- To empower women in career, entrepreneurship, digital skills and financial literacy through education and ensuring their participation in social and economic life.
- To create a strong social education network for women.
- To encourage women to develop themselves, their economic empowerment, financial and social inclusion by providing professional and personal development trainings.
- Including women in the social network with user-friendly mobile applications and e-content.
- Contributing to digital transformation in the field of adult education.
- To create a user-friendly e-learning platform.
- To give the participants the awareness of Europeanness and European citizenship and reshape our network via creating a bond.

This project is funded with the support of the Erasmus+ Programme of the European Union. Project No: 2021-1-NO01-KA220-ADU-000033467.
