2022

 AGENCIE
ERASMUS+
FRANCE | EDUCATION & FORMATION

The **RE-THINK / RE-ACT** project focuses on the **inclusion** of Secondary Education students with difficulties in adaptation and/or behavior in the classroom due to poor training in **soft skills**, which currently represents a real challenge for educational systems.

These students often do not receive the appropriate educational response they need, either because they do not have the necessary resources for it or because they are unaware of their personal situation, which can lead to them being excluded from their group, classroom and from their education center, and may even lead to early school leaving.

#ERASMUSDAYS2022

In honor of the European Erasmus Days, our partners from Spain and Portugal created a video, explaining what our project is about, why it is so important and what the Outputs of the project will be.

Curious? Click to watch!

Co-funded by the
Erasmus+ Programme
of the European Union

PROJECT OUTPUTS

RE-ACT WEBSITE

This is a free and open training platform for educational agents, and is an essential part of the RT/RA ecosystem. Its contents can be used both formally and independently by teachers interested in SOFT SKILLS.

Thanks to the RE-ACT Webspaces (RAW) we will start an UPSKILLING process, training educational agents in aspects in which they have not been traditionally trained.

Lead organisation is Cyprus for producing this output. The development of the materials in cooperation with all partners is in progress and going according to plan.

Rethinking for Schools

Educational centers find it difficult to detect shortcomings in meeting the needs of students, and limitations in their improvement strategies. Therefore, RFS is an ideal digital tool based on extensive analysis thanks to the capacity of collaborating partners, which will provide information to establish areas of self-diagnosis and lines of work for educational management teams and managers.

Finland is responsible for creating this output. The creation of the content for RFS is in progress - soon to be finished, including translations in all partner languages. The platform will be created by the Cypriot Partner.

YOU DO

YOU DO is a digital resource with gamified interactive materials with a socializing component that facilitates self-knowledge by reinforcing skills related to emotional intelligence. Thanks to the game and overcoming challenges, the YOU DO user reflects and re-learns skills to face daily situations in which creativity, resilience, digital skills and other soft skills necessary for more meaningful and effective learning are required.

Lead organisation is Cyprus.

TOGETHER APP

The TOGETHER app (2Gapp) supports the ecosystem of RT/RA results. It is the necessary piece for all the plans, training and resources of an educational organization to have the desired effect. Through this app it will be possible to follow the progress of the students in real time and alerts will be established for the personalized and synchronized attention of said students.

Lead organisation is Spain.

Our new project website has been created. Follow us on our social media channels to stay updated with our project progress and to learn more about soft skills.
